Career Objective

As a Software Engineer with a strong passion for problem-solving and mathematics, I aim to build a professional career in Android mobile application development and backend development using .NET. I am eager to apply my skills, learn new technologies, and contribute to meaningful projects within dynamic and collaborative teams.

Education

- **Bachelor's Degree in Computer Science** Oct 2024 – Oct 2028
M.E.T Academy, Mansoura, Egypt
 - Completed Level 1 training with the **Digital Cubs of Egypt initiative**. Oct 2023 – Nov 2024
 - Currently training as an Android Mobile App Developer with the **Digital Egypt Pioneers program**. June-2025-Present
-

Work Experience

- **Android Mobile Application Development Trainee**
Digital Egypt Pioneers Program | May 2025 – Present
 - Built sample Android applications applying OOP principles in Kotlin.
 - Explored app architecture and design patterns to enhance code maintainability.
 - Collaborated with fellow trainees to discuss ideas and debug real-world issues.
 - **Member, Backend Track**
Technical Gates CIS Team, Mansoura University | April 2025-May 2025
 - Participated in structured backend training covering .NET, databases, and software architecture.
 - Ranked **2nd** place in the **Top 10 achievers list**.
 - Collaborated with peers to complete backend challenges and mini-projects.
 - **Participant, Level 1 Training**
Digital Cubs of Egypt Initiative | Sep 2024 – Nov 2024
 - Gained foundational skills in programming and software development concepts.
 - Completed hands-on tasks to apply newly learned technical concepts.
-

Student Activity

- Member – **Technical Gates CIS Team**
Faculty of Computer Science, Mansoura University April 2025-May 2025
- Participant – **Engineering ACPC Team (M.E.T Academy)**
M.E.T Academy, Mansoura March 2025-Present

Skills

- Kotlin (Android Development)
- C# (.NET Backend Development)
- C++ (OOP and problem-solving)
- SQL (Database queries and design basics)

Mobile Development

- Android app architecture (activities, fragments, navigation)
- UI design and implementation using XML
- Applying Object-Oriented Programming principles

Tools & Technologies

- Visual Studio & Visual Studio Code
- Android Studio
- Git & GitHub for version control
- SQL Server

Other Skills

- Problem-solving and algorithmic thinking
 - Team collaboration and communication
 - Passion for continuous learning and exploring new technologies
-

Project

- **SQL Database Project**

April-2025

- Designed relational database schema for a small business.
 - Practiced writing complex queries, joins, and normalization.
 - Tested using SQL Server.
-

Additional Information

- Strong interest in mathematics and problem-solving, which supports analytical thinking in programming.
- Ranked 2nd place among Top 10 achievers in the Backend track of the Technical Gates CIS Team, Mansoura University (2025).
- Participated in a Google-sponsored tech event in Egypt, exploring the latest trends in software and mobile development.
- Comfortable working in team environments and contributing ideas during group projects.
